

TCM Forklift Part

TCM Forklift Part - In the international industry of material handling, lift trucks play an important role for transporting industrial goods. Initially innovated as industrial vehicles during the 1930s in America, forklifts gained popularity following World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these machinery spread internationally.

First started as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first lift truck. Throughout the years, TCM forklifts have become a global leader in forklift manufacturing and have built a solid reputation in the business. TCM started constructing forklift manufacturing locations outside of Japan during the 1980s and is now engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes several models of industrial forklifts with over 50 years of accumulated technology and expertise, making their products used and recognized all around the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and intends to become a world-class leading business.
